WELCOME TO VECHAIN FINANCE CRYPTO-CURRENCY INVESTMENT PLATFORM.

DEPENDABILITY AND INNOVATION IN TRADING

A distinguished reputation, innovative approach, and profitable working conditions are our main advantages, which is why we're the choice of over +100,000 clients.

We've built a platform for buying, selling, and investing in crypto-currency.

We're reinventing the global equity blockchain – that is a secure, smart, and easy-to-use platform, and completely disrupting the way businesses raise capital and the way investors buy and sell crypto-currency.

WHAT IS VECHAIN FINANCE?

Vechain finance was founded in 2015 by a group of professional FOREX traders with the aim of accumulating assets of several large investors for the most efficient trading on the crypto-currency and stock markets.

Since the founding of vechain finance, our principles have been absolute transparency, dedication to our clients, as well as a complete understanding of the features of our profile market and the expectations of different types of investors.

For more than three years we cooperated only with large investment funds and serious investors from Western Europe, China, and India.

Thanks to the trust of such important FOREX markets players in our company, we were able to achieve unsurpassed results in this industry and at the beginning of 2018, we began to develop a special investment direction for private investors.
